

## Quality Workshops

RECampus Partnership Real Estate Educational Provider  
<https://portal.recampus.com/re/QualityWorkshops>

To Judith Griffen

Subject: 2017 thru 2021 40 Hour Pre-licensure Sales & Brokers re-application reply

In response to Vermont Real Estate Education "conditional approval" at July 17th monthly meeting, Quality Workshops (QW) was required to provide "one link" so members of the education committee can perform their review of content and procedures from one location.

QW's initial request for re-approval for salespersons and brokers online self study revised previous applications to include the commission's latest application information. That one link has the same content and reference to updated material since QW has been offering Vermont's pre-licensure program. It is and was as posted at URL:  
<http://qualityworkshops.com/w40-app-2017-2021/index.htm>

The program uses Modern Real Estate Practice latest edition (19<sup>th</sup>) of which Walter Rice thru QW's RECampus Partnership is recognized as an ongoing contributor since MREP 14<sup>th</sup> Edition. Feedback from QW and QW's student has played a major role in the improvements of content and would like to continue to do so once re-approved by the current education commission for the 2017 thru 2021 QW renewal period.

After the VRE education committee's initial comments from the 1<sup>st</sup> submittal, QW provided the official welcome email from QW's RECampus partnership site with full enrollment information that all students receive. QW further requested any commission member to send an email to [support@qualityworkshops.com](mailto:support@qualityworkshops.com) with a time and number that they could be available for a live one-on-one orientation support call to discuss any aspect of QW's self study program content and procedures, as well as what is expected from students in order to review their studies and receive their certificate of completion. These procedures are also covered in the one link linked at URL: <http://qualityworkshops.com/w40-app-2017-2021/index.htm> . To date no commission member has requested an orientation call.

Home Study content comes directly from Vermont's Candidate for Real Estate Booklet posted at PSI / AMP's URL:  
[https://portal.recampus.com/re/QualityWorkshops/store/portalcheckout/browse/RE\\_WHOLESAL/130100?state-code=VT&org-code=RE\\_CE\\_VT&state-code=VT&licensetype=SLP](https://portal.recampus.com/re/QualityWorkshops/store/portalcheckout/browse/RE_WHOLESAL/130100?state-code=VT&org-code=RE_CE_VT&state-code=VT&licensetype=SLP)

QW's self study program takes an approximately 120 hours to complete the modern real estate practice content and plus practice time with RECampus's Q-bank to pass the AMP Real Estate Exam advanced Q/A. Once students have completed the textbook portion of the program an additional 8 to 12 hours is spent on the Vermont Laws including approximately 130 Q/A's from each of the Vermont Statutes Annotated as outlined in Vermont's Candidate for licensure Booklet also noted above.

Quality Workshops is re-requesting the Vermont's RE Education commission members to accept the application as linked above and encourages commission member to perform a review of the program as do all candidates seeking a real estate license in Vermont ie., request an orientation call. Calls may be recorded in support of ongoing quality improvement purpose.
